My 5 year old son loves busy books. He often requests busy books for gifts. I must admit, I find the little figures to be captivating as well. I love watching him play with the figures. It is such a window into his mind and I love to know what he thinks. I think it is so important to get young children to role play. Kids learn so much that way and parents learn more about their child's unique personality. Every busy book we have owned has had great character detail, even if only on a small scale. Several figures are included in each book. I also like that some lesser known characters are featured.

These Busy Books are awesome! We have a few of the different themes, they provide tons of quiet time and keep my 5 year olds entertained. My kids (5 years old) love them so much, this was purchased as a gift.

Fun book to keep my 4 year old son busy. I bought this for a hotel room vacation- it kept him busy playing with the figures mostly. Great buy for this reason. Probably would be great for airplanes too!

Yeah, so, I'm a big geek. I bought this book for the figurines. They are great! My only problem is that there is no Martian Manhunter or Wonder Woman in the set even though they were part of the original Justice League but, they have Hawk Man, Krypto, and Robin who were not.

Bought these for my grandsons. They mom is very watchful of what they watch. They are 5 and found stories very interesting without showing violent scenes.

My great grandson enjoys playing with the characters as the story is read. He also enjoys making up his own stories as well.

My kids love these books and this one is really cute. Will be a christmas gift, and I know my son will be thrilled.

Got this for my 2 and 4 year old grandsons for when the visit. They love to play with the characters
