The Kids' Book Of Questions

Synopsis

Kids love to be asked questions almost as much as they love to ask them. And asking is importantâ”parents know the value of having meaningful conversations with their kids, especially as family time is under continuous assault from gadgets and devices. Now the book that solves those needs is backâ”announcing a fresh new edition of The Kidsâ”™ Book of Questions. Including subjects like the Internet, school violence, and climate change, the book remains a timeless treasure. Here is a collection of questions designed to challenge, entertain, provoke, and expand young minds. These are the questions that let kids discover how they feel; let people know what they think; raise issues that everyone loves to discuss. Gregory Stock, author of the original #1 bestselling Book of Questions, took his question-asking ways into schools and came back with over 200 questions, including Thorny dilemmas: Would you rather have a job you didnâ”™t like that paid a lot or a job you loved that paid just enough to get by? Embarrassing challenges: Would you kiss someone in front of your whole class for \$250? Provocative ideas: What things do you think your parents do just to set an example for you? Intriguing fantasies: If you could text any famous person and be sure theyâ”™d read and answer your text, who would you write to and what would you say? There is only one requirement: Give an honest answer. Then be amazed to see where one little question leads.

Book Information

Paperback: 216 pages

Publisher: Workman Publishing Company; New edition (March 10, 2015)

Language: English

ISBN-10: 0761184643

ISBN-13: 978-0761184645

Grade Level: 3 - 12

Customer Reviews

I had this book many, many years ago; someone borrowed and never returned. I found this updated version has more questions for older "kids," teens in fact. I wish there were more questions for 5-10 year olds. Still fun though--just takes more effort to find appropriate questions than I remember.

This is a fantastic book that encourages family discussions. As a parent, grandparent, teacher and school counselor, I have known many families who have found this book to be an invaluable resource in their home library. It can be a fun way to enliven discussions during family meals. Parents always have the option of selection out questions they feel are not age-appropriate. I highly recommend this book to all parents of young children.

Some of the questions in this book go beyond what I would want my 7 year old thinking about. One example question "If someone came into your classroom and said you can sacrifice yourself and die right now and save your classmates or save yourself and all your classmates die immediately. What would you do? I am all for deep thought provoking questions, but some of these take it a bit far for children.

I was shocked to see some of the questions. Should be for teenagers and older, not for young kids. I expected this to be more fun, age appropriate questions for kids. One question asked what you would do if you found your neighbors dog dead. I would not get this if you are looking for more fun, easy questions to ask kids.

Nice book. Encouraged us to know each other better

A completely interesting book for kids of just about any age - leading them to evaluate their thoughts, morals and general views of life. Great.
