Truth And Fiction In The Da Vinci Code: A Historian Reveals What We Really Know About Jesus, Mary Magdalene, And Constantine

Synopsis

A staggeringly popular work of fiction, Dan Brown's *The Da Vinci Code* has stood atop The New York Times Bestseller List for well over a year, with millions of copies in print. But this fast-paced mystery is unusual in that the author states up front that the historical information in the book is all factually accurate. But is this claim true? As historian Bart D. Ehrman shows in this informative and witty book, *The Da Vinci Code* is filled with numerous historical mistakes. Did the ancient church engage in a cover-up to make the man Jesus into a divine figure? Did Emperor Constantine select for the New Testament--from some 80 contending Gospels--the only four Gospels that stressed that Jesus was divine? Was Jesus Christ married to Mary Magdalene? Did the Church suppress Gospels that told the secret of their marriage? Bart Ehrman thoroughly debunks all of these claims. But the book is not merely a laundry list of Brown's misreading of history. Throughout, Ehrman offers a wealth of fascinating background information--all historically accurate--on early Christianity. He describes, for instance, the discovery of the Dead Sea Scrolls (which are not Christian in content, contrary to *The Da Vinci Code*); outlines in simple terms how scholars of early Christianity determine which sources are most reliable; and explores the many other Gospels that have been found in the last half century. Ehrman separates fact from fiction, the historical realities from the flights of literary fancy. Readers of *The Da Vinci Code* who would like to know the truth about the beginnings of Christianity and the life of Jesus will find this book riveting.

Customer Reviews

Bart D. Ehrman is the chairman of the Department of Religious Studies at the University of North Carolina at Chapel Hill. He is a recognized authority on the early Christian church and the life of Jesus Christ, has appeared as an expert on the History Channel, the A&E Channel, and other broadcast venues, and has authored a number of books within his area of scholarship. In response to the popularity of "The Da Vinci Code," a bestselling novel by Dan Brown, which claims to be based on "historical truth," Dr. Ehrman has written "Truth and Fiction in the Da Vinci Code" as a means of setting the known historical record straight. Brown's novel is in fact not at all accurate in most of its basic religious assertions. That is, Brown's claim that Jesus and Mary Magdalene were married, produced a child, and created a royal ancestral line which still exists is "fiction" not "fact," and is not supported by historical records. In my opinion, this book by Professor Ehrman is absolutely essential reading for anyone who has read Dan Brown's "The Da Vinci Code." It challenges the alleged historical "facts" upon which Brown's novel is based and clears the air, so to speak, about the many controversies which "The Da Vinci Code" has initiated. In the interest of full disclosure and in case some reader may be critical of this review, let me make the following declarations. Yes, I have read Dan Brown's novel and, being an aficionado of mystery thrillers, I thoroughly enjoyed it and, like Professor Ehrman, found it to be a real page-turner and I would recommend it to all who enjoy this genre.
