Customer Reviews

The review is by my sweet neice Mariem who read the book and liked it:In my own, personal opinion I think that this book, Bailey the babysitter fairy should get five stars, for it is a funny book and is interesting how there are baby fairies too, which I've never seen in the book before.

8 year old daughter is obsessed with these books. Clean, positive reading at the 4th grade level.

I choose the rating I gave because it gave me lots of detail but it did not have really a ending to me just because they end it blah blah blah cause if you have not read it I am not gonna let y'all say spoil alert

These books are addicting for 4-6 year olds and are horribly written. Fullbof pure cliche and trite descriptions. You will teach your child bad values and shallowty by reading these never ending monsters that shouldn't even be called books.

This book is truly amazing if you love the rainbow magic series you will love this special addition book about a babysitters worst nightmare with all of Bailey's magic items gone

Daisy Meadows is such an incredible author. I have read so many of her books because they are so good. I am the very first person to talk about and review this book.

I love it .do babysitting cannot get any better i never read anything liketis .you are the best it cannot get to good
