## Synopsis

Back cover:"Hours before Senator Ted Kennedy's car plunged into a Massachusetts pond, killing his attractive woman passenger, a card-reading prophet 3000 miles away sent herself a telegram predicting the danger for Teddy."Four times in recent months, future events affecting Senator Kennedy have shown up in the unique deck of cards with which Mrs. Katherine Sabin formulates her forewarnings. Each time, the prediction in the cards has come true." - NATIONAL ENQUIRERMrs. Sabin, the author of this remarkable book, has been using Western Union as an official recorder of her predictions for several years. A remarkably successful prophet who uses only an ordinary deck of cards to foretell the future, she now offers everyone, in all walks of life, the first practical key to precognition. Based on the premise that within our subconscious there exist natural powers of intuition, THE CYBERNETIC ESP BREAKTHROUGH shows how to tap into those powers - and has proven it can work with hundreds of ordinary people!

## Customer Reviews

I have been using these cards for 40 years and they are awesome. My current book copy is literally falling apart due to decades of use. I am also a Tarot reader but nothing compares to the details you can get for a reading from this method.

Considering that KCS didn't have any esoteric knowledge, she was certainly very intuitive. Her ideas were extremely advanced, and certainly well worth looking at. I have many years experience in this field, and teach, but she has certainly taught me quite a few things. Nobody else seems to be doing what she did. However, her book is rather a mess, and difficult to sort out. I am personally in the process of rewriting and updating it. It is certainly worth buying, especially as she wanted to

spread her ideas to as many people as possible.
