Developing Skills In Algebra One, Book B

Synopsis

Book B follows with operations in polynomials, solving polynomial equations, and working with rational expressions.

Book Information

Series: DEVELOPING SKILLS IN ALGEBRA

Paperback: 134 pages

Publisher: Dale Seymour Publications (1984)

Language: English

ISBN-10: 0866512225

ISBN-13: 978-0866512220

Product Dimensions: 8 x 10 inches

Shipping Weight: 12 ounces

Average Customer Review: 5.0 out of 5 stars [See all reviews](#) (4 customer reviews)

Best Sellers Rank: #293,279 in Books (See Top 100 in Books) #47 in [Books > Children's Books > Education & Reference > Math > Algebra](#) #121 in [Books > Teens > Education & Reference > Mathematics > Algebra](#) #842 in [Books > Science & Math > Mathematics > Pure Mathematics > Algebra](#)

Age Range: 12 and up

Grade Level: 7 and up

Customer Reviews

This series easily contains the best algebra one worksheets I've ever come across. They cover absolutely every concept in the first year algebra textbooks (although not necessarily in the same order, which is why it's really important to get each of the 4 books). They provide wonderful practice for students struggling with algebra for several reasons. 1) They begin each section by grouping problems by solving technique, so that the student experiences the same method repetitively. The later pages in a section mix the problems so that the students must decide which technique to use. 2) The quantity of exercises alone is really helpful -- for students for whom repetition is the key, the number of easy to "intermediate" exercises provides enough practice to help the material "stick" with the students.

So necessary for students to practice. Today's books have very few problems to practice. This is the answer. I would recommend it to go with the other 3 books. Great set of skills.

Exactly as described. Delivered promptly. I love this series of Algebra books. I have used them for years.

Though out of print, I find that as an Algebra teacher I go to this series of worksheets often to really hammer the basics. Very traditional! Straight forward practice. Great supportive tool for the classroom!
